## **SDI Audio Embedder Rack Module**

**Theatrixx** 

## #XVVRM-AUDIO2SDI

The SDI Audio Embedder Rack Module is a unit option for the 8-Bay Reversible Rackmount Converter system. The module can be inserted in the 8-Bay Frame in either direction, allowing the inputs/outputs to be positioned either at the front or the back of the unit depending on the application. There are no exposed PCBs as all modules are enclosed, and therefore protected against static shock, dust and general wear and tear. Gold-plated, redundant spring pins with magnetic retention deliver DC power to the modules, meaning no messy cabling and external power bricks are needed.

## Connections

Video Input

Auto switching between 3G/HD/SD SDI BNC HDMI 1.4 input

Video Output

3G/HD/SD SDI BNC

## **Audio Input**

2 x Balanced + 4dB XLR (analog) each with a 3-segment LED meter

| Power Requirements | Power Supply                 | Reversible redundant power fed by TXVV-RF8 (8-Bay<br>Rackmount Frame)  |
|--------------------|------------------------------|--|
|                    | Power Consumption            | 20 W   |
|                    | Operational Voltage<br>Range | 12 VDC   |
| Environmental      | Relative Humidity            | 0 % to 90 % non-condensing   |
| Supported Signals  | 3G Format Support            | 1080p50, 1080p59.94, 1080p60.  |
|                    | HD Format Support            | 720p50, 720p59.94, 720p60, 1080i50, 1080i59.94,<br>1080i60, 1080p23.98, 1080PsF23.98, 1080p24,<br>1080PsF24, 1080p25, 1080PsF25, 1080p29.97,<br>1080PsF29.97, 1080p30, 1080PsF30 |
|                    | SD Format Support            | 525/23.98 NTSC, 525/29.97 NTSC.625/25 PAL  |
|                    | SDI Video Sampling           | 4:2:2 and 4:4:4  |
|                    | SDI Audio Sampling           | Sample rate of 48 kHz and 24 bit   |
