Description

- Mounts a single 32" – 70" display to a brick or stud wall
- Premium quality heavy-duty design for securely mounting LFDs
- Cantilever arm for ensuring optimum position of the display
- Neat cable management solution for a tidy, discreet installation
- 2 year warranty

The Lindy Single Display Full Motion Wall Mount is a high quality, secure solution for mounting a single display to a brick or stud wall, with ability to freely tilt or horizontally move the display. The mounts low-profile, slim design provides a flush fit of the display to the surface, ensuring an aesthetically pleasing setup in residential or professional AV installations, while the cantilever arm allows for simple access to the rear panel connections. The display is easily adjusted horizontally, or with a 15° tilt , to provide the most comfortable viewing experience.

Supporting LFDs [Large Format Displays] with VESA sizes from 200x200mm to 400x400mm, this bracket provides secure mounting of larger LED, OLED and older plasma displays up to 70". The heavy-duty steel structure ensures heavier displays up to 45kg [99lb] are supported.

The mount includes plastic covers to provide a more appealing design, covering the wall plate panel and cable management covers, great for scenarios where design is of utmost importance, including residential and retail installations.

Please note: Please confirm this solution can support the display's VESA mounting dimensions and weight before ordering
