

mRack[®] LTO-8

The World's First Rack Mountable Thunderbolt LTO-8 Tape Archiving Solution

mRack LTO is a 1U rack mountable LTO-8 tape archiving solution that connects to any Thunderbolt equipped computer for effortless backup and archiving of critical media assets.

LTO-8 is an industry standard tape format that offers a shelf life of up to 30+ years (significantly longer than spinning disk or SSD technology) and is the most cost-effective storage medium on a cost per TB basis.

mRack LTO-8 supports the Linear Tape File System (LTFS). LTFS mounts the LTO-8 tape drive(s) in the same way as a disk drive. This enables drag and drop functionality to the LTO tape cartridge.

mRack LTO-7 Highlights

- 1U rack mountable enclosure with single or dual LTO-8 tape drive(s)
- Ideal for desktop use or for mounting in standard 19" racks or DIT carts
- 12 TB native storage capacity per tape cartridge
- Up to 300 MB/second data transfer rate
- Reads and writes to both LTO-8 & 7 tapes
- Dual Thunderbolt 3 ports
- Dual drive version enables writing to two LTO-8 drives simultaneously*
- Thunderbolt certified by Apple & Intel
- Mac OS X and Windows compatible

*Requires third party software supporting this feature

Backup. Archive. Manage.
